

**ADDENDUM**

**To**

**THE MEMORANDUM OF UNDERSTANDING  
FOR A MULTI-LATERAL COLLABORATION**

**Between**

**THE INSTITUTIONS AND FUNDING  
AGENCIES OF THE CTF3 COLLABORATION**

**Concerning**

**THE CONTRIBUTION OF  
STANFORD LINEAR ACCELERATOR CENTER  
TO THE CTF3 COLLABORATION**

**November 2005**

**CONSIDERING:**

The Memorandum of Understanding ("the MoU") defining the framework applicable to the construction of a 3<sup>rd</sup> generation Compact Linear Collider Test Facility (CTF3) and the performance of Experiments to demonstrate the feasibility of key issues of the CLIC scheme;

That Article 1.2 of the MoU envisages Addenda defining each contribution pledged to the CTF3 Collaboration,

STANFORD LINEAR ACCELERATOR CENTER represented by Ron Ruth, in its capacity as Member of the CTF3 Collaboration, herewith confirms that the following contributions have already been provided until/inclusive 31 December 2004

- One 160 kV / 10 A electron gun of triode type on long-term loan with a value of \$250.000,-
- The entire beam line design and significant commissioning work for the CTF3 drive beam injector. The manpower, which has been dedicated to this work, corresponds to 3 man years provided by senior accelerator scientists.

These contributions have been the subject of a CERN/SLAC MoU signed by James Paterson/SLAC and Kurt Hübner/CERN on 4 October 2000.

This Addendum shall form an integral part of the MoU.

Done in Geneva on ..... 2005

Approvals:

The undersigned concur with the addendum to the Memorandum of Agreement

Date: 4 November 2005

---

Persis Drell,  
Deputy Director,  
Stanford Linear Accelerator Center (SLAC)
