

CLIC organisation

The CLIC Steering Committee

General management

- Thanks to Ian = outstanding deputy for 14 years (1994-2006)
- Thanks to K.Hubner = enlightening advices in CSC
- **New CLIC Steering Committee (CSC):**
H.Braun, R.Corsini, J.P.Delahaye, G.Geschonke, D.Schulte, W,Wuensch
- **CLIC Extended Steering Committee: CESC:**
CSC + J.Ellis, A.de Roeck, D.Schlatter
- **CLIC Administrative Assistant:**
S.Escaffre

Work programme (2006-2010)

- **Demonstration of the feasibility of the CLIC technology in CTF3**
- **Design optimization of CLIC scheme**
- **Preparation of CLIC Feasibility Report to be published in 2010**
- **Preparation of phase after 2010**

J.P.Delahaye

- **CLIC Study Leader**
- **No deputy but distribution of responsibilities within the CSC**
- **Overall coordination of CLIC study**
- **Resources: Budget and man-power**
- **Relation with CERN Management and outside world**
- **Quest for (new) collaborations**
- **Chairman CSC**
- **Coordination of CLIC design and parameters**
- **Link-person to ILC**

Hans Braun

- **Chairman weekly CLIC meetings**
- **Technical secretary of the CLIC Steering Committee**
- **Preparation for approval by CSC of CLIC related:**
 - Participation and presentation to Conferences
 - Requests of visitors
 - Travels
- **Publications**
 - Approval of CLIC notes before publication
 - CLIC annual report and external publications
 - Coordination and edition of CLIC Feasibility Report
- **CLIC Machine Study:**
 - Responsible for CLIC Machine Study collaborations
 - CLIC cost study (in close collaboration with C.Wyss) and critical review of cost drivers
 - Linkman with technical services for the CLIC scheme
 - CLIC Beam Diagnostics specifications
 - CLIC magnets specification and linkman to AT/MMS
- **CTF3 deputy project leader:**
 - Specific responsibilities defined by CTF3 Project Leader

R.Corsini

- **Coordination of CTF3 beam commissioning and beam for power production**
 - **Daily meeting during operation**
- **Close collaboration with Operation (F.Tecker and OP group)**
- **Strong support by Expert team**
- **Technical specifications of related tools and activities**

G.Geschonke

- **CTF3 Project leader**
- **Coordination of overall design, construction and commissioning**
 - **Ad-hoc meetings on specific subjects**
- **Responsible of CTF3 budget**
- **Planning and schedule**
- **CTF3 collaboration spokesperson**
 - **Linkman to CTF3 collaborations**
 - **Yearly technical collaboration meeting**

D. Schulte

- **Coordination of CLIC and CTF3 Beam dynamics:**
 - Ad-hoc meeting on beam dynamics
- **Technical coordinator of CLIC related EU co-funded activities:**
 - ELAN
 - EUROTEV
 - FP7 beam dynamics new requests
- **Alignment precision and stability:**
 - specifications,
 - link-person with TS/SU and LAPP collaboration
- **Link-person with CLIC physics study group**
- **Link-person with ILC about Beam Dynamics issues (GDE)**

W. Wuensch

- **Coordination of Power production and Structure activities**
 - **weekly structure meeting**
- **Chairman of CLIC module Working Group**
- **Collaborations with CERN expert units**
 - **TS (DC spark test +Laser fatigue), Surface treatment, Vacuum, etc...**
- **Collaboration with outside institutes**
 - **Dubna, Finland, CiEMAT, etc...**
